

HOMEBUYER WORKSHOP

Tuesday, February 14
6:30 – 8:30 p.m.

M-Station
2906 East MLK Blvd.
Austin, Texas 78702

Our two-hour homebuyer workshop will prepare you to take an online homebuyer education course offered through eHome America. This workshop covers the ten-steps in the home buying process, determining your affordability, how much money you need to have saved before buying a home, down payment assistance programs, and how to access the online content. We will also share with you how to enroll in Foundation Communities Matched Savings Program to start saving for your down payment.

Class participants receive a log-in and password for the online course after completing the workshop. Foundation Communities covers the fee for the online course (a \$45 value). Participants have up to one-year to complete the online course.
