Financial Coaching

Make a difference in the lives of Central Texas families by becoming a financial coach. With the economy as it is today, many working families and individuals struggle to meet their financial goals. As a Financial Coach Volunteer you will have the opportunity to work one-on-one with clients as they establish financial goals and make a plan to reach them!

Foundation Communities also provides financial coaching services to families in the Children’s Home Initiative (CHI) Program. Volunteers meet individually with low income families who have previously battled homelessness. Coaches work with families on a regular basis and assist them in working toward creating and maintaining financial stability for their families.
